PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

May 2024 - Present

- **Cozy Culinary** - built a full-stack web application with Django for a start-up food business that informs customers of its offerings and schedule. Empowers users to send inquiries to the owner and sign up for a newsletter/rewards club

Operating Room Nurse | Seattle Children's Hospital

Seattle, WA | February 2021 - June 2023

- Collaborated with the interprofessional surgical team to ensure patient safety for a wide variety of procedures
- Interviewed job candidates, helped select new hires, and trained and oriented newly hired and student nurses

Peri-op Nurse | Prime Surgical Center

Encino, CA | October 2019 - December 2020

- Ran the pre-op and post-op units during peak times. Supervised, delegated, and performed all tasks required to ensure a smooth workflow and excellent patient outcomes

Critical Care Nurse | Memorial Medical Center

Modesto, CA | March 2018 - June 2019

- Provided high-quality, compassionate care for up to 3 critically ill patients simultaneously
- Recognized hospital-wide as a "Unique Contributor" during Hospital Week 2019

PROJECTS

Recipe App | Completed May 2024

- Designed and created a responsive full-stack application using Django and Bootstrap that displays recipe info and allows users to create, modify, delete, and search for recipes
- Visualized data via 3 different chart types that analyze different aspects of the recipe data sets using Matplotlib

Meet App | Completed February 2024

- Developed a progressive web app with React that displays and charts event data from a Google Calendar account using a Test-Driven Development approach
- Implemented serverless functions with AWS Lambda to authenticate and authorize users via Google OAuth2
